

Professional Licensure Disclosures: Programs' Fulfillment of Educational Requirements for Specific Professional Licensure/Certification by State

- ✓ = The identified program has been determined to fulfill educational requirements for licensure/certification in the indicated US State, Commonwealth, or Territory.
- + = It has been determined that additional educational requirements beyond those in the identified program are required or are differentiated for licensure/certification in the indicated US State, Commonwealth, or Territory (many states differentiate requirements based on transcripts, degree, licensure); in other words, requirements may not be met.
- = Neither of the above determinations have yet been made for the indicated US State, Commonwealth, or Territory.

[\(Abbreviations Key\)](#) Please speak with program administrators for further details. Professional licensure/certification programs that are being taught out have not been included.

Professional Licensure Disclosure

In accordance with federal regulations, any program with a curriculum leading to professional licensure/certification will publicly disclose on this document its determination (or lack thereof) as to whether or not Nyack's curriculum for the program meets the education requirements for licensure/certification in each U.S. State or territory. Prospective students will be notified by email of these disclosures prior to admission. Students enrolled in these programs who officially submit a change of state/territory to their address will be notified by email of these disclosures within 14 calendar days in accordance with the institutional Address Changes policy (search "Address Changes" policy in the Nyack College Catalog). Students enrolled in a state/territory where a curricular equivalency determination has changed will be notified by email of the disclosure within 14 calendar days.
